BROOKS & FREUND, LLC / **SHAW DEVELOPMENT** / BONITA SPRINGS, FLORIDA  
PRODUCTION FLOOR CASE HISTORY

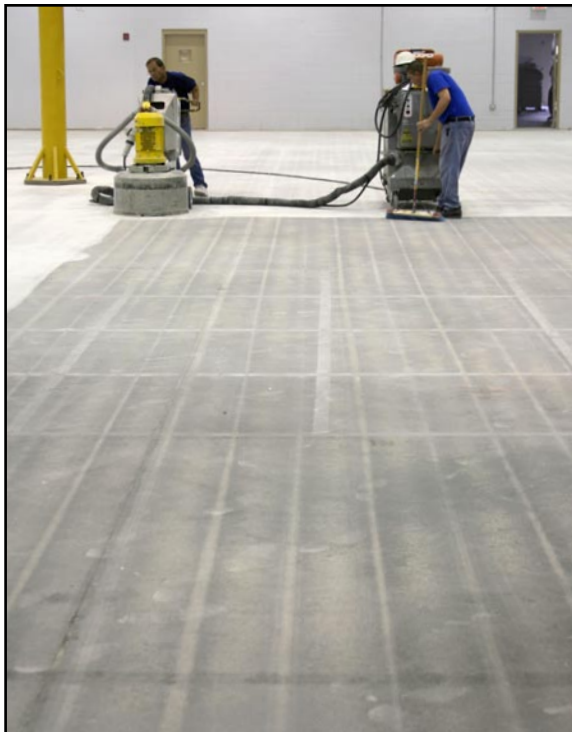

**Shaw Development** is a company that specializes in creating custom engineered products for a variety of markets such as fuel caps, adaptors, and fluid systems.

Whether it is introducing lightning safe fuel caps to make aircraft safer or applying aircraft technology to reduce fuel spills on ground vehicles; the **Shaw Companies** welcome a challenge and create a new design while meeting customers cost targets.

Below shows photographs of a facility in Bonita Springs, Florida being remodeled for their occupancy.

Start of the project showing shot blasting and diamond grinding.

**Brooks & Freund, LLC**, the general contractor for this project, has managed hundreds of successful projects including multi-family, industrial, and commercial for more than 25 years. The team uses its combined knowledge of the local market, subcontractors, suppliers, building codes and regulatory agencies to plan and develop specialized projects efficiently (with a reputation as one of the best managed and successful general contractors in Florida).

PRODUCTION FLOOR CASE HISTORY

**The preparation/coating procedures used were:**

1. Portable vacuum blast ("shot blast") [entire floor - 100%]/diamond grind.
2. Crack fill/repair floor imperfections (E31-1204).
3. Apply E31-1203 epoxy primer.
4. Apply E31-1202 (100% solids epoxy leveling material) with non-skid aggregate.
5. Apply color topcoat (U31-1201).
6. Clean up.

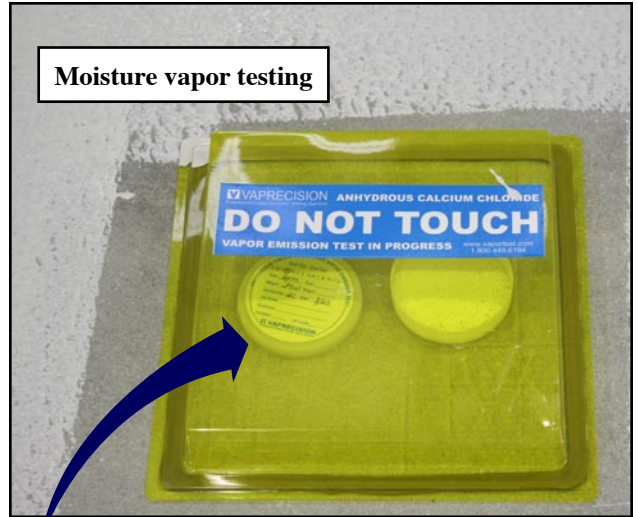

Applying / filling cracks / floor imperfections (E31-1204)
