WILSON AIR CENTER

HANGARS 4 / 5 AND MAINTENANCE HANGAR

Wilson Air Center - Memphis is home to one of the largest aircraft canopies in the world (bottom photograph). At 26,000 square feet, this canopy allows aircraft to arrive and depart simultaneously, while ensuring a “front door” parking space for corporate executives. The canopy is large enough to accommodate multiple Gulfstreams.

#1 FBO

Wilson Air Center is the dream of its founder, Bob Wilson. Bob is the son of Kemmons Wilson, who is the original founder and chairman of Holiday Inn. Bob’s father is credited with forever changing the hotel and hospitality industry with his innovative philosophies and ideas toward customer service. His winning approach is still applied to daily at Wilson Air Center. Today, these far reaching facilities are run by vice president David Ivey, with the chain still independent and owned by the Wilson family.

Wilson Air Center - Memphis was recently voted as the #1 Corporate Aviation Support Facility in the 2008 Aviation International News survey, making them the only Fixed Base Operator (FBO) to be #1 for nine consecutive years. Along

with other locations in Houston, TX and Charlotte NC, Wilson Air Center was also named #1 FBO Chain in Professional Pilot magazine for the consecutive years of 2007 and 2008.

Wilson Air Center - Memphis, the first of three locations in the country for this award winning FBO chain and is its flagship location and corporate headquarters.

The photographs on the following pages illustrate floor renovation work performed on three Wilson Air Center - Memphis hangars in March and April of 2008, with additional planned for late summer.
